5th NAC 2026

Dear Esteemed Colleagues and Friends,

Selamat datang!

On behalf of the Organising Committee, it is our great honour and pleasure to welcome all delegates, speakers, partners, and community advocates from across the country and the region to the 5th National AIDS Conference 2026. Your presence reflects a shared commitment to advancing HIV prevention, care, and support for all.

This year's theme, **"Innovating Prevention, Strengthening Care: No One Left Behind,"** speaks to the work still ahead of us. As we adopt new tools such as long-acting therapies, PrEP innovation, and differentiated, community-led models of care, we must ensure that progress reaches every person who needs it, without stigma and without exception.

The programme commences with two concurrent pre-conference workshops focusing on HIV and STI prevention and management, and on contemporary HIV counselling challenges. The two main conference days that follow bring together plenary lectures, forums, symposia, workshops, and e-poster presentations spanning the full breadth of HIV medicine and public health. We encourage you to engage openly, exchange ideas across disciplines, and build the partnerships that will carry this work forward.

Our sincere appreciation goes to the speakers, sponsors, partners, reviewers, volunteers, and every member of the committees whose dedication made this conference possible.

We wish you all a rewarding conference experience, and may the 5th NAC 2026 inspire meaningful collaboration, fresh thinking, and renewed resolve in our shared mission.

Sincerely,

Dr Masliza Zaid
Organising Chair

ABOUT MASHM & THE MALAYSIAN AIDS COUNCIL

Malaysian Society for HIV Medicine (MASHM)

Established 1996 · Non-profit, NGO

www.mashm.net

Scan to learn more

The Malaysian Society for HIV Medicine (MASHM) was established in 1996 to provide a group identity for Healthcare Providers caring for People living with HIV/AIDS in Malaysia. It is a non profit non government organisation. Its membership includes doctors and paramedics from varied fields who are involved in the treatment and research of HIV/AIDS.

Advancing HIV Care, Education, and Collaboration, MASHM unites healthcare professionals and actively collaborates with governmental, non-governmental, and professional entities to improve prevention, counselling, treatment strategies, and public awareness through educational updates, national treatment guidelines, skills development, advocacy, and supporting pioneering research to transform HIV care in Malaysia.

Malaysian AIDS Council (MAC)

Established 1992 · Under the Ministry of Health (MOH)

mac.org.my

The Malaysian AIDS Council (MAC) is a non-profit organisation established in 1992 under the Ministry of Health (MOH), with a mission to represent, mobilise and strengthen non-governmental organisations and communities working on HIV/AIDS. Today, MAC comprises 38 Partner Organisations, uniting grassroots community voices and professional expertise to strengthen and advance the HIV/AIDS response across Malaysia.

MAC complements and supports the government's efforts to maximise the community's response to HIV/AIDS and to maximise the usage of limited resources available. MAC works with its partner organisations in a diverse range of activities from advocating and policy reforms; developing awareness and communication materials; creating public awareness campaigns; conducting and organising workshops and seminars; rolling out prevention and education programmes; providing care and support services and psychological counselling.
